## IT STUDENT

### CONTACT

- +91 80028 80087
- connectwithdevarsh@gmail.com
- Ahmedabad, Gujrat

### PROFILE SUMMARY

Motivated IT student with strong skills in Python, Java, DBMS(SQL), web development and problem solving. Actively working on real projects like EduNotes and Task earning. Focused on learning modern technologies and building practical solutions. Looking for opportunities to grow in software development and contribute to meaningful projects.

### EDUCATION

2025 - Present

RC TECHNICAL INSTITUTE AHM.

- Diploma in Information Technology
- Current Semester: 4
- Core Subjects: Python, HTML, CSS, JS, Database, JAVA, SQL

2023 - 2024

SATUABABA SCHOOL PALITANA

- SSC - Class 10
- Percentage: 78.67%

### PROJECT EXPERIENCE

#### EduNotes - Notes Sharing Platform

Role: Backend & Frontend Developer

- Built a complete user system with login, signup, and security-question based password recovery.
- Developed modules for uploading, viewing, and downloading notes.
- Added structured fields such as title, description, subject, and semester.
- Created the backend using Python - Flask and SQL.
- Designed a simple and responsive UI for smooth user experience.

#### Personal Portfolio Website

Role: Web Designer & Developer

- Created a modern, animated, and fully responsive personal portfolio.
- Included sections like Hero, About, Skills, Projects, Education, and Contact.
- Added smooth animations and interactive JavaScript effects.
- Hosted the website on Netlify.

#### Task Earning Web App (LocalStorage Based)

Role: Frontend Developer

- Developed a login system using name and UPI ID.
- Created a wallet system that stores coin balance using localStorage.
- Added features like spin-and-earn, tap-to-earn, daily limits, and profile management.
- Built a simulated withdrawal flow using a Telegram bot.
- Designed a clean UI that gives a real earning-app feel.
